Regaining Your Self offers new hope in the battle against eating disorders through an innovative therapeutic technique pioneered by Ira M. Sacker, M.D. A leader in the field of eating disorders, Dr. Sacker presents a bold new concept that illuminates the core issues behind anorexia, bulimia, exercise bulimia, binge eating disorder, and compulsive overeating. This approach, known as PIRT—Personal Interactive Rational Therapy—guides individuals beyond the confines of an eating disorder and empowers them to regain their sense of self.

Dr. Sacker believes that, along with anxiety and the drive to perfection, the issue of identity is at the heart of eating disorders. Lacking a strong interior sense of self, many people are vulnerable to society's ideal of the perfect body. Instead of finding their own distinct personalities, they fall prey to the false identity of an eating disorder. Once that happens, the eating disorder occupies their sense of self to the exclusion of anything else. Only by moving beyond this distorted sense of self can the individual break away from the obsessive hold of the eating disorder.

But breaking the grip of the eating disorder isn't enough. The eating disorder identity may return unless something even more powerful replaces it. Dr. Sacker's unique approach meets this challenge by taking into account physical, emotional, and spiritual factors in the patient's makeup. And because *transition* is the most important aspect of treating the eating disorder patient, Dr. Sacker explains the concepts necessary to help patients find a passion to replace the fixation of the eating disorder.

assionate, intuitive, and honest, *Your Self* provides breakthrough

highlights

Experience the Eureka Airspeed® UNLIMITED Pet. Unlike most other vacuums, AirSpeed® UNLIMITED Pet is engineered with an efficient air path with limited bends and turns. This allows more air to pass through the vacuum. The direct air path from floor to cup decreases the distance for dirt to travel, which increases the amount of airflow for powerful suction. For attachment cleaning, simply set the suction control dial to "tools". Deep clean carpet, bare floors and more— turn the brushroll on for powerful cleaning on carpeted floors or area rugs; to prevent dirt and debris from scattering while cleaning bare floors, turn the brushroll off. Soft rubber wheels won't nick or scratch bare floors, and Eureka's patented Smooth-Glide® Pivoting Base is easier to push over all floor types. Deep clean stairs and upholstered furniture with the 10ft deluxe stretch hose and on-board tools. The Eureka AirSpeed® UNLIMITED Pet is designed to remove pet hair in your home—the PET Power Paw® removes pet hair from carpet and upholstery; an on-board crevice tool and dusting brush with plastic teeth grab pet hair from hard to reach areas. The odor absorbing high efficiency allergen filter reduces dust and allergens and the washable, reusable dust cup filter means less frequent replacement. Eureka has engineered the AirSpeed® UNLIMITED Pet to provide maximum suction power. Tested to strict industry standards, Eureka's multi-cyclonic dust cup system never loses suction and maintains power as you vacuum your home. The Eureka AirSpeed® Pet Rewind features an automatic cord rewind for quick and easy storage, and a 5-setting height adjustment ensuring deep cleaning on multiple carpet types.

Features: Carry Handle, Multi-surface Cleaner, Automatic Cord Rewind, Brush On/Off Switch, Pet Hair Pick Up, Light Weight, Air Flow Regulator, Adjustable Height

This fabulously versatile KitchenAid Ultra Power Stand Mixer is destined to become your go-to kitchen appliance in no time at all. A literal staple in the world of culinary delights, KitchenAid first sold their home mixers way back in 1919. Since then, KitchenAid stand mixers have become easier for the home chef to buy, store, and use. And naturally, the reputation for sturdy construction and reliable performance hasn't changed one bit since. The Ultra Power Mixer has a nice, wide bowl, boasting 300 watts of raw power for mixing double batches. The KitchenAid Stand Mixer has an accessory hub that accepts a variety of attachments that simplify many common kitchen chores like vegetable slicing, food grinding, and even making fresh pasta and homemade ice cream. Okay who's getting hungry?

Elegant and colorful Holiday Nouveau linens from Lenox *58 percent cotton and 42 percent polyester ivory jacquard damask *Pattern features lively holly leaves, flowing tartan bands, and gold ribbon *Collection includes tablecloths, runners, placemats, and napkins *Machine washable in cold water with like colors
SKU:ADIB0002X4DOY
The combination of jacquard damask fabric and classically colored accents make the Lenox Holiday Nouveau linen line a sophisticated way to dress the table for holiday festivities. Fashioned from a cotton-polyester blend, the line has a subtle sheen to its background, which features an ivory field set with tone-on-tone holly leaf patterns. Flowing tartan bands, strands of gold ribbon, and clusters of bright green holly with red berries add merriment and color to the look. The line is a beautiful accent to plain or gold-banded china and goes well with several of Lenox's holiday dinnerware patterns. Available in placemats, napkins, runners, and tablecloths of numerous shapes and sizes, Holiday Nouveau linens are machine-washable and safe in the dryer. *--Emily Bedard*

Playbills are printed for particular shows to be distributed at the door. Articles within the Playbills change monthly to reflect new shows and artists performing in plays, musicals or special attractions; this wraparound section is the same for all Playbills across all venues at any given time. Within this wraparound, Playbills contain a cast list, cast photos, cast biographies, song lists and who performs the songs (if a musical), and a list of scenes for the particular show.

Playbill was first printed in 1884 for a single theatre on 21st St. The publication is now used for nearly every Broadway show, as well as many off-Broadway productions. Outside New York, Playbill is used at theatres throughout the United States, including in Birmingham; Boston; Chicago; Cincinnati; Columbus, OH; Dallas; East Lansing; Houston; Indianapolis; Los Angeles; Miami; Minneapolis; Philadelphia; Phoenix; Pittsburgh; St. Louis; San Diego; San Francisco; and Washington, DC. Circulation is currently just below 4,000,000, comparable to magazines such as Time.

On the opening night of a Broadway show, Playbills are stamped with a seal on the cover. The opening night date appears on the title page within the magazine. Special "Opening Night" Playbills can also be purchased on the Playbill website. These are sealed in a bag and have an "Opening Night" seal on the front page.

A programme or program is a booklet available for patrons attending a live events such as theatre performances, fêtes, sports events, etc. It is a printed leaflet outlining the parts of the event scheduled to take place, principal performers and background information. In the case of theatrical performances, the term playbill is also used. It may be provided by the event organizers or a charge may be levied.

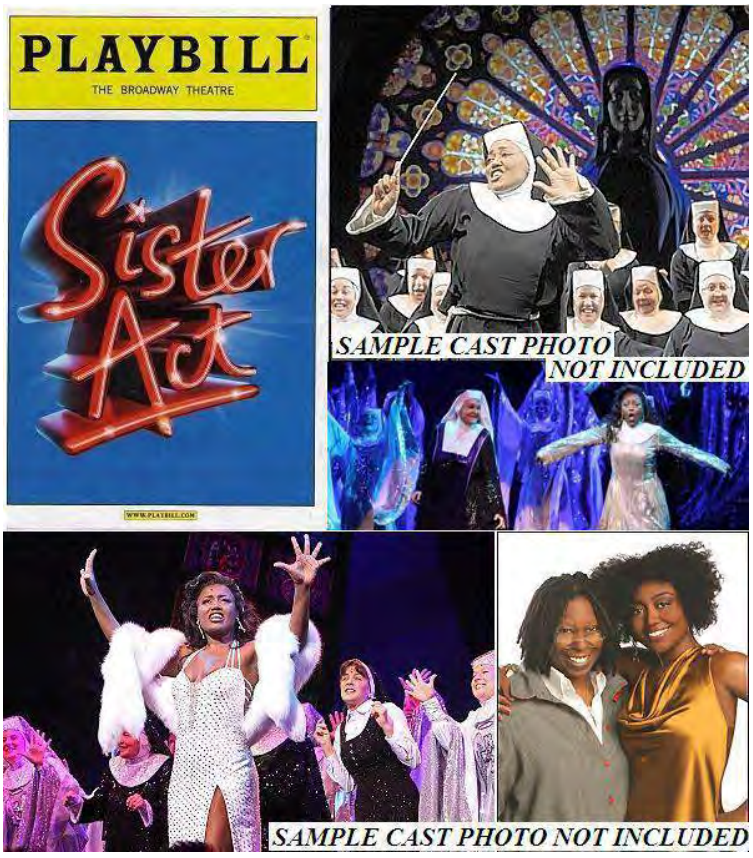

The programme generally contains photos of the production, a cast list, biographies of the actors and production staff involved, the name of the theatre, background information, and can contain advertisements. For example, the programme for the original production of Man of La Mancha contained articles by the staff about how the production was created. The first theatre programmes were issued in the mid-nineteenth century in magazine format. The original theatre programme first appeared in the 18th century. The early playbills were basic, with only enough pages to list the cast members and information on the play's locale and scenes. There were usually only four pages: the cover advertised the show, a back page displayed the theatre layout, and the two interior pages listed all the credits. Not all early programmes were printed, but written by hand or cut and pasted together from the letters of other printed documents. The latter was especially done by theatre entrepreneur Sarah Baker, who owned several theatres in Kent, during the late 18th century.

Theatre programmes have become very valuable articles of information for a city or nation's cultural history.

MUSICAL PLOT: In 1978 Philadelphia, Mother Superior declares that the convent is in need (Prologue) before Deloris Van Cartier is seen performing in the night club run by her gangster boyfriend Curtis Shank ("Take Me to Heaven"). Deloris is overjoyed as she believes her boyfriend is going to introduce her to a record producer on that day (her birthday), although she soon learns that this is not to be. However she gets to Shank just in time to see him and his crew made up of nephew TJ, Bones, and Dinero, shoot someone. Police Officer Eddie decides that Deloris needs to go into the witness protection program and
